E-SIGN CONSENT

Proposed Insured/Applicant/Owner

Consent Scope

Via your electronic signature (by clicking the checkbox as applicable), you voluntarily consent to receive and sign electronically ("E-Sign") documents presented to you (including those for signature) relating to Ethos Technologies Inc. and its affiliates (collectively, "Ethos", "Company", "we", "us", and "our") as well as those on behalf of the Company's insurance carriers, including, but not limited to, notices, agreements, authorizations, acknowledgments, disclosures, delivery receipts and other documents related to any of products offered by or through Ethos (collectively, "Documents"). You agree that Ethos may accept an electronic signature from you and will have the same effect as a physical "wet" signature. You agree that Your Device (as defined below) meets the specifications and requirements listed below, and that such Device permits you to access and retain the Documents electronically. You agree that you have the hardware and software described in the section titled "Required Hardware and Software," you are able to receive and review Documents electronically and you have an active email account. At any time, you may withdraw your consent.

When we send you an email or other electronic notification telling you a Document is available electronically and we do in fact make it available online, that shall have the same meaning and effect as if we provided a paper Document to you, whether or not you choose to view it.

We reserve the right, in our sole discretion, to communicate with you by postal mail.

How to Obtain Paper Copies

If you have an account with Ethos, please visit the Ethos policy portal to obtain paper copies of required Documents maintained in your account. Additionally or alternatively, to obtain paper copies of required Documents, please contact Ethos with the subject line "Requesting Paper Copies" and in the body of your email, include your full name, mailing address and telephone number. We do not otherwise provide paper copies of Documents unless required by applicable law.

How to Withdraw Your Consent

To withdraw your consent, please contact Ethos with the subject line "Withdraw My E-Sign Consent" and in the body of your email, include your full name, mailing address, telephone number and the statement "I do not wish to sign Documents electronically." By withdrawing your consent, you may not be able to use certain Ethos services that require an e-signature. Your E-Sign consent withdrawal will be effective shortly after we receive it. There are no fees associated with your withdrawing E-Sign consent. Withdrawing your consent to E-Sign does not revoke your prior E-Sign consent or signatures.

Potential Consequences of Not Providing E-Sign Consent

If you elect to receive required Documents in paper format, it may slow the speed at which Ethos delivers its products and services to you. Further, if you elect to receive required Documents in paper format, you may not be able to use certain online functionality with respect to the Company's services or complete actions with respect to products/services offered by or through Ethos.

Required Hardware and Software

To access, receive and retain Documents, you will need:

1. a Current Version (defined below) of an Internet browser we support;
2. a connection to the Internet;
3. a Current Version of a program that accurately reads and displays PDF files (which may be either a browser that supports native PDF rendering or a program such as Adobe Acrobat Reader and/or similar software);

4. an email account that can be used to receive Documents; and

5. a computer or electronic device and an operating system capable of supporting all of the above ("Your Device").

By "Current Version," we mean a version of the software we support and that is currently being supported by its publisher or the applicable platform (e.g., Apple's iOS). We support the Current Version and for a period of time (at least three months), the version immediately prior to the Current Version of Google Chrome and Safari. You may need to download and use the most recent version of all such software and such software may not be supported on all devices. Ethos will notify you of any material changes to the hardware and/or software requirements that may create a material risk that you will not be able to receive, view, print or save a document or communication. As permitted by and in accordance with applicable law, we reserve the right to discontinue support of a Current Version of software for any reason, including our opinion that it suffers from a security or other flaw that makes it unsuitable for use with the Service.

If you make unauthorized modifications to Your Device, such as by disabling hardware or software controls (for example, through a process sometimes referred to as "jailbreaking"), or use a virtual private network, Your Device may no longer be eligible to access or use the Service and we reserve the right to deny or limit your access to the Service and to assert any other remedies available to us under this E-Sign Consent.

How to Inform Ethos of Updates to Your Contact Information

You must keep your email address current with Ethos. You are responsible for informing Ethos of any change in your email address. You can update your contact information by contacting Ethos. We may provide you with separate instructions to update your email address from time-to-time. You agree if we send an email message to you regarding any electronic communication or send any electronic communication to the email address you have provided us and such email message is returned as undeliverable, we will be deemed to have provided such electronic communication to you.
